

# Carry It Away

by The Tonk Honkys © 2013

It's hard to say why we went astray  
But maybe we're both better off this way  
Whatever the case, how can I replace  
What you have that filled the space  
In my heart without a trace

Carry it away with you when you go  
but don't hold on to it long -- you gotta pass it on  
What can you do with it all alone  
Go find someone who will help you carry it on, carry it on ...

Every now and again I think back to when  
We had it made, aww but then...  
Things got in the way more and more each day  
Until we both felt so... far away  
But I'll never forget the love you gave

Carry it away with you when you go  
but don't hold on to it long -- you gotta pass it on  
What can you do with it all alone  
Go find someone who will help you carry it on, carry it on ...
